

Thank you for cooperating with the temperature check and health check card. In June, the student council planned a slogan campaign for Anamizu's shopping street "to liven up its area". This showed "how you think and how you move". Students will feel happy, if the locals would read the slogan and it cheers them up.

A crosswalk was set up in front of the main entrance last December. Before, cars would drive through the street even when there were many students walking by. Now that there is a cross walk, cars stop 100%. I am sure students feel that they are supported by the community.

Students are supposed to greet and thank the drivers after they cross the street. I'm sure the drivers will be able to start a day with a nice feeling after they see this. This action and attitude will liven up our community like the student council's campaign.

Now, we must ensure social distancing and prohibit human contact. We are to maintain a distance between people, in times like this, we should care for others and stay closer to people's heart so that all of us can share a nice warm feeling. I hope we can make our students like this, together.

All of our prefectural tournaments were cancelled. I heard that "some parents and their children cried" because of it. I felt powerless and weak.

I would like the 3<sup>rd</sup> graders to look back your 3 years. Is there anything that you have acquired besides your skill or performance? The answer is yes. You have built relationship with your teammates and an attitude you built through your hard practices.

A power to withstand and endure, a heart that will never give up, energy to cheer your teammate, a custom to greet... You must have learned many things through these years. You have already learned many things, and this fact will never change.

Why are senior students respected? Why are they practicing so seriously? This is not about winning or losing, it's about what they have piled up through their 3 years of practice. I hope you will live each day to the fullest so that the junior students will see you as their role model.

## Student council project "Let's liven up Anamizu!"

As students saw their town lacking energy, they started a "Corona slogan campaign" to liven up the shopping street. They sent it to the town commerce association and the community center.

〈President of student council〉 Hashizume Yamato  
At the "let's liven up Anamizu project" we tried to collect "Corona word play" and "Corona Kanji" posters from all students. Our goal was 100 posters but at the end we collected about 30-40. All the posters were thought out nicely and we even got a poster that was not planned but meant to cheer everyone up. I thought it was a really good project.  
It was sad that there were less participants than I had expected but I want to make use of this experience to plan something like this in the future.

### ◇Coffee cup present !

On June 3<sup>rd</sup> master of Oitekaze Stable gave coffee cups to all 164 students through our local sumo supporting club. Thanks to the stable master and to the supporting club. We will stay clean and healthy.

### ◇Thank you for the masks and disinfectant

- ◇ From Kawai pharmacy, we received "1.5 liters of disinfectant". We are grateful for your kindness.
- ◇ From Anamizu board of education, we received 620 masks. Within these masks, 170 were from Jonny's and associates. We delivered them to all our students right away. We would like to use them effectively. Thank you very much.

### ◇Better safe than sorry! Shakeout earthquake drill and Fire drill!

On June 22<sup>nd</sup>, we had a moved up the shakeout drill (originally planned on July 8<sup>th</sup>) and did it together with the fire drill. We did the evacuation drill assuming that there was a fire from our science room after the earthquake and proceeded everything smoothly. All students will join the town's general emergency drill on 9/27<sup>th</sup>.
