

A school festival filled with strong emotion and laughter

It was a day where we were able to feel the strength of the group and each students' possibilities.

Although we only had 3 weeks to prepare our festival, we felt and saw every one's team work and effort to achieve their tasks. We could see every student's devotion towards what they were assigned to and how they wanted their festival to be. I was also happy to see many students power and individuality that I could not see during our usual school days. I was able to feel your unlimited potentials. For example, the English speech and Jikkoin ko-na-(student performance) was truly amazing.

Last time, I mentioned that helping each other is like to multiply, $1 \times 2 \times 3 \times 4 \times 5 \dots$ I think you really showed this. You showed that one student can't do everything by himself but if you cooperate, you can make everything possible, like this time.

What matters the most in events are choosing where to do it. It is important to feel the different atmosphere when you enter the place. Support crew created this attractive environment. The big sign at the entrance welcomed all the parents and local people and all the artworks that were displayed on the wall, paper lanterns that were seen in our hall were neatly displayed. To mention, the art display on the stairs, the festival program that had the Halloween designs, and the slogan we saw at the gym welcomed and entertained all the visitors. Our school hall, class rooms, stairs, and our gym was a perfect set.

For the chorus, 9 students played the piano very well, and the conductors were filled with enthusiasm that attracted the listeners. I was deeply moved by the student's harmony especially the 3rd graders who worked very hard for this festival.

For our plays, all grades were filled with ideas and creativity. They all made me laugh and I was impressed. I truly think that all of them were good performance. Those who acted had to memorize long lines and perform with their confidence. We were able to see very detailed "behind-the-scenes work" like the stage sets, props, costumes, sound effects and lightings. All the casts, props, sets, costumes, lights and sounds worked hard as a team to accomplish their goals and this made their performance possible.

Especially, for the 3rd graders, it was their last school festival so they were very motivated for this day. What you left for this school are new goals for our 1st and 2nd graders. Elders will be the role models for everyone and the younger students will try and exceed it. This is Anamizu junior high school's tradition and culture to support our school, and I know that this will be passed on eternally in this school. Now I have another topic to brag about when someone from another district visit our school. After the 3rd graders, the 2nd graders student council took over the work and the MC duties.

Thank you for your cooperation

All the PTA culture and gym committee members gathered the day before and prepared for the snack selling. Thank you for coming to school early in the morning and bagging them.

Also, thank you for supporting all our students by coming to our festival and giving them big applause.

School Festival Executive committee chairman

Even though 1st, 2nd and 3rd graders had very little time of preparing, we were able to accomplish this excellent festival owing to our unity. Not only the school play but chorus, jikkoin ko-na(student performance) and the management were something that stood out and made our event an excellent one. I really enjoyed my last festival.

12	Thu	3 rd grade Tax class	31	Tu	New Year' s Eve

※ End of the semester meeting is postponed to 12/25(W) full day, and 12/26(Thu) half day until lunch time. This is to acquire enough class time for our students. We will have a normal 6 period day on the 24th. We appreciate your understanding.

Internet trouble avoidance lecture

On November 5th (Tu), along with Ishikawa education week, we will have an open school for moral education class and an Internet trouble avoidance class, lectured by our ICT supporting staff Ms. Horii. Starting this year, moral education became a regular subject, and the class needs to change to “thinking and discussing” style. For the Internet trouble avoidance class, we can learn about the troubles that kids or even adults can get involved in. The lecture will be based on the school survey which was conducted towards all students. There will be no club activities on this day, so please feel free to come and listen to the lecture with your children. You do not have to assign to join. Also, 11/5 (Tu) to 11/7(Thu) is an open school day. Feel free to come at any time you are available and watch your children study in the classroom. We will continue to show the art work that we exhibited in our school festival. If you haven't seen it, it is your last chance to contemplate them thoroughly. I hope you can come.

Class schedule for 11/5~7 (Thu)

The class schedule for 11/5 stays the same, but for 6th and 7th there will be few schedule changes. Please do understand.

<Prefecture student science contest> Grand prize 1st year

November goals

Let's spend a fulfilling school life by following the school rules!!

★effort tasks

- *Follow the rules and manners.
 - Follow the class rules
 - Follow the winter dress code rules
 - Follow the commuting traffic rules
- *Let's think about bullying together
 - put yourself in another person's shoes.

A nice letter came!!

A nice letter came from a person who lives in Tochigi prefecture.

The message of this letter was to thank all the 2nd grade students who went to Ryogoku-kokugikan to cheer the sumo wrestlers who are from Ishikawa. The person was moved by how students cheered with enthusiasm and is thankful that the person was able to share the time with our students. It was a very warm letter with cheerful messages. We learned that our action and words sometimes give hopes to people unintentionally. It was a warm letter to teach our students a nice thought.
