CHARTERED FLIGHT FOR STUDENTS

Where's our alma mater?

KOMATSU, May. 11 - Hakui Junior High School (Hakui, Ishikawa) chartered a plane to and from Komatsu Airport as part of a school excursion.

The students enjoyed a sightseeing flight from the Southern Alps to Mount Fuji and over Hakui, where their alma mater is located. In order to prevent the spread of the new COVID-19 virus, the students used the international security checkpoint, and the immigration office, instead of the domestic route used by ordinary passengers. The aircraft used was a 144-seater (international aircraft – B737). The students deepened their friendship during the 90-minute flight.

Right before the flight, the students attended a lecture by "Furusato Cheering Teams", a group of cabin attendant with connections to Hokuriku, and studied about the job in the sky.
